FINLAY MINERALS LTD.

Notes to the Condensed Interim Financial Statements
Nine months ended September 30, 2016
(Unaudited - Expressed in Canadian dollars)

1) NATURE AND CONTINUANCE OF OPERATIONS

The Company was incorporated under the Business Corporations Act (British Columbia) and its principal business activity is the acquisition and exploration of resource properties. The properties of the Company are without a known economically feasible ore body. The exploration programs undertaken and proposed constitute an exploratory search. There is no assurance that the Company will be successful in its search. The business of exploring for minerals and mining involves a high degree of risk. Few properties that are explored are ultimately developed into producing mines. Major expenses may be required to establish ore reserves, to develop metallurgical processes, and to construct mining and processing facilities at a particular site. It is not possible to ensure that the current exploration programs planned by the Company will result in a profitable commercial mining operation.

Although the Company has taken steps to verify title to resource properties in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements and noncompliance with regulatory requirements.

These financial statements have been prepared on the going-concern basis, which assumes the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the normal course of business. Several adverse conditions cast substantial doubt on the validity of this assumption. The Company has incurred operating losses since inception and a loss for the nine months ended September 30, 2016 of \$47,697 (2015 - \$52,047), has limited financial resources, no source of operating cash flow, and no assurances that sufficient funding, including adequate financing, will be available to conduct further exploration and development of its mineral property projects.

The application of the going-concern concept is dependent upon the Company's ability to generate future profitable operations and receive continued financial support from its creditors and shareholders. These financial statements do not give effect to any adjustments that might be required should the Company be unable to continue as a going-concern and therefore, be required to realize its assets and discharge its liabilities in other than the normal course of business and at amounts differing from those reflected in the financial statements.

Management plans to continue to pursue equity or debt financing to support operations. Management believes this plan will be sufficient to meet the Company's liabilities and commitments as they become payable over the next twelve months. There can be no assurance that management's plan will be successful. Failure to maintain the support of creditors and obtain additional external equity financing will cause the Company to curtail operations and the Company's ability to continue as a going-concern will be impaired. The outcome of these matters cannot be predicted at this time.

2) SIGNIFICANT ACCOUNTING POLICIES

a) Statement of Compliance

These condensed interim financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") applicable to the preparation of interim financial statements, including IAS 34, Interim Financial Reporting. Accordingly, these Financial Statements do not include all of the information and footnotes required by IFRS for complete financial statements for year-end reporting purposes. These financial statements should be read in conjunction with the Company's financial statements for the year ended December 31, 2015, which have been prepared in accordance with IFRS as issued by the IASB.

The accounting policies applied by the Company in these financial statements are the same as those applied by the Company in its most recent annual financial statements for the year ended December 31, 2015.

FINLAY MINERALS LTD.

Notes to the Condensed Interim Financial Statements
Nine months ended September 30, 2016
(Unaudited - Expressed in Canadian dollars)

2) SIGNIFICANT ACCOUNTING POLICIES *(continued)*

b) Critical accounting estimates and judgments

The preparation of financial statements requires management to use judgment in applying its accounting policies and estimates and assumptions about the future. Estimates and other judgments are continuously evaluated and are based on management's experience and other factors, including expectations about future events that are believed to be reasonable under the circumstances. The following discusses the most significant accounting judgments and estimates that the Company has made in the preparation of the financial statements.

- Impairment

The Company considers both external and internal sources of information in assessing whether there are any indicators that mineral interests are impaired. External sources of information include changes in the market, and the economic and legal environment in which the Company operates. Internal sources of information include the manner in which mineral interests are being used or are expected to be used. Management has assessed impairment indicators on the Company's mineral interests and has concluded that no impairment indicators existed as of September 30, 2015.

c) Significant accounting policies

These interim financial statements have been prepared using the same accounting policies and methods of computation as the annual financial statements of the Company for the year ended December 31, 2015. The disclosure contained in these interim financial statements does not include all the requirements in IAS 1 Presentation of Financial Statements ("IAS 1"). Accordingly these interim financial statements should be read in conjunction with the Company's financial statements for the year ended December 31, 2015.

There are no other IFRS or IFRIC interpretations that are not yet effective that are expected to have a material impact on the Company.

3) EXPLORATION AND EVALUATION EXPENDITURES

Omineca Mining Division British Columbia

Silver Hope Claims

The Company has a 100% interest in 30 mineral tenures, eight of which are subject to a 1½% Net Smelter Returns royalty ("NSR"), and were acquired during 2006 by the issue of two million common shares. One half of the NSR (¾ %) is purchasable prior to a production decision for one million dollars.

Atty and Pil-Gold Claims

The Company has a 100% interest in 52 mineral tenures (formerly 376 mineral claim units) of which 23 mineral claims were acquired from a private company controlled by a director of the Company with consideration for the issuance to that private company of nine million common shares (post subdivision) and a 3% NSR. The Company is also obligated to issue a further two million shares to this private company when the property is put into commercial production and may also, prior to that date, purchase a 1½ % NSR (½ of the 3% NSR) for two million dollars.

FINLAY MINERALS LTD.

Notes to the Condensed Interim Financial Statements

Nine months ended September 30, 2016

(Unaudited - Expressed in Canadian dollars)

6) SHARE CAPITAL *(continued)*

- (1) During the period ended September 30, 2016 the Company extended 1,958,333 warrants with an original term of 24 months to 48 months; the new expiry date of these warrants is now October 7, 2018.

7) CAPITAL MANAGEMENT

The Company's objectives for the management of capital are to safeguard the Company's ability to continue as a going-concern, including the preservation of capital, and to achieve reasonable returns on invested cash after satisfying the objective of preserving capital.

The Company considers its cash and cash equivalents to be its manageable capital. The Company's policy is to maintain sufficient cash and deposit balances to cover operating and exploration costs over a reasonable future period. The Company accesses capital markets as necessary and may also acquire additional funds where advantageous circumstances arise.
